

Sir's,

I have just heard that there is a petition before you that has been brought before you by the National association of Broadcasters. This petition # 04-160 would hamper satellite radio to provide instant traffic and weather to the motoring public. I have found that while driving I do not have to keep changing stations on my car radio while driving from one area to the next. This is a safety issue to me. Please reject this petition. Thank you,

Dean McNiece
